Professional Summary

Java Developer with hands-on experience building backend applications using Spring Boot and RESTful APIs. Skilled in database management with MySQL, and familiar with UI/UX design using Figma and wireframing. Focused on writing clean, maintainable code and contributing effectively in team environments.

Skills

- **Programming:** Java
- **Frameworks:** Spring Boot
- **Web & APIs:** RESTful APIs, JSON, Postman
- **Database:** MySQL
- **Frontend:** HTML, CSS, JavaScript
- **Design:** UI/UX (Intermediate), Wireframing
- **Tools:** Git, GitHub, Maven, Eclipse, VS Code, Figma

Education

B.E – Computer Science and Engineering 2023 – Present
Chettinad College of Engineering and Technology, Karur
CGPA: 7.7 (Up to 6th Semester)

HSC 2022 – 2023
Swami Matriculation Hr. Sec. School, Keelapalur
Percentage: 90%

Projects

Library Management System

Technologies: Java, Spring Boot, MySQL, Spring Data JPA, Postman, Git, GitHub

Developed a backend system to manage books and student records using RESTful CRUD APIs. Implemented layered architecture and integrated MySQL for efficient data handling.

Rental Billing System (Voice-Based Features)

Technologies: Java, Spring Boot, MySQL, Hibernate, REST APIs, Dart, Flutter

Built a scalable billing system that automates cost calculation based on usage duration. Designed with clean architecture (DTO, validation, REST APIs) for maintainability and future voice integration.

Certifications

- HTML – ScholarHat
- CSS – DataFair
- JavaScript – ScholarHat
- Spring & Spring Boot Web Services – Infosys Springboard
- MongoDB – MongoDB Website
- MySQL – InfinityFree
- UI/UX Design – IBM
